Components

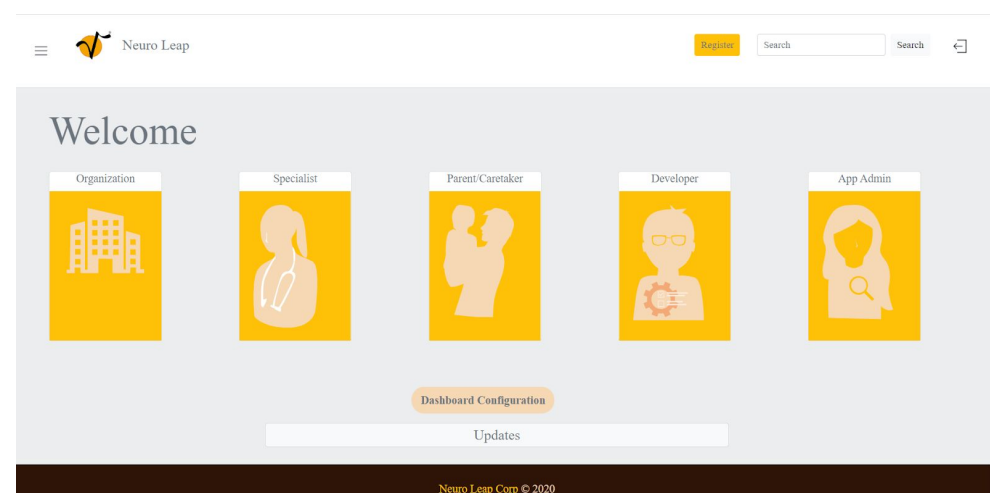

Navbar

Navbar consists of navigation to different routes. Header Neuro Leap routes back to the home page. Register routes to the registration page where each student can be registered.

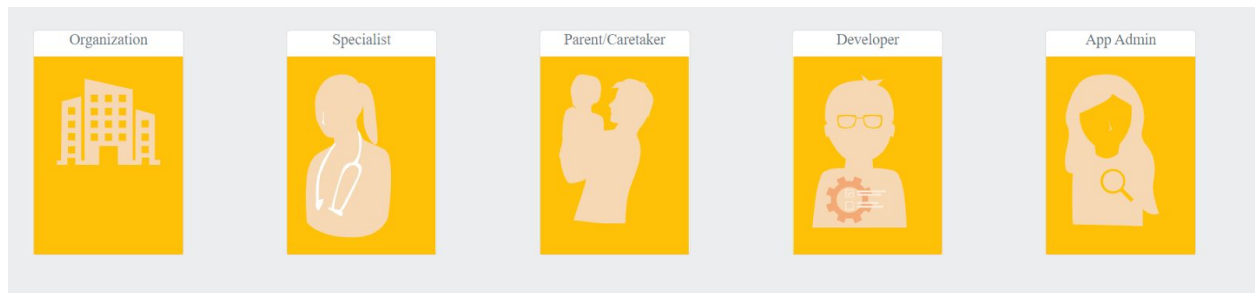

Navbar also comprises of the hamburger menu which toggleable and adapts as the screen size.

Home

Home Component is the landing page of the application. Home is made up of various components. This is the first page which user will see once he signs up.

Card

When the user clicks on a particular card the user will be redirected to the respective dashboard.

Dashboard Settings

A screenshot of a 'Dashboard Settings' form. The form is titled 'Dashboard Settings' in a yellow box. It contains several input fields: a dropdown for 'Plot', a dropdown for 'Statistics', and a dropdown for 'Color'. Below these are two date range selectors, each with 'From' and 'To' labels and a calendar icon. At the bottom is a yellow 'Set Configuration' button.

Dashboard Settings allow the user to set the configuration for the dashboard. User needs to select from the plot, statistics, color, and date range and click on the “Set Configuration” button.
